A practical, inside look at the world of corrections.

Corrections: An Introduction, Fourth Edition, provides a practical approach to the world of corrections. The text focuses on what people *do* in corrections and *why*, as well as the challenges that face contemporary correctional staff and administrators. This unique approach integrates the author's practical experience with the theory, history and policy that students need to know. The text demonstrates both the realities of and reasons behind correctional practices at the local, state, and federal levels. Chapters also present case studies, information on careers, and real examples of situations to provide students with an understanding of the practical aspects of working in corrections.
