Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights) Jack D. Ives

A geographer with extensive research experience in the Canadian North, Jack D. Ives has written a lively and informative account of several expeditions to Baffin Island during the “golden age” of federal research. In the 1960s, scientists from the Geographical Branch of Canada’s Department of Energy, Mines, and Resources travelled to Baffin to study glacial geomorphology and glaciology. Their fieldwork resulted in vastly increased knowledge of the Far North—from its ice caps and glaciers to its lichens and microfossils. Drawing from the recollections of his Baffin colleagues as well as from his own memories, Ives takes readers on a remarkable adventure, describing the day-to-day experiences of the field teams in the context of both contemporary Arctic research and bureaucratic decision making. Along the way, his narrative illustrates the role played by the Cold War-era Distant Early Warning Line and other northern infrastructure, the crucial importance of his pioneering aerial photography, the unpredictable nature of planes, helicopters, and radios in Arctic regions, and of course, the vast and breathtaking scenery of the North.

Baffin Island encompasses both field research and High Arctic adventure. The research trips to Baffin between 1961 and 1967 also served as a vital training ground in polar studies for university students; further, they represented a breakthrough in gender equality in government-sponsored science, thanks to the author’s persistence in having women permitted on the teams. The book contains a special section detailing the subsequent professional achievements of the many researchers involved (in addition to the later career moves of Ives himself) and a chapter that delves deeper into the science behind their fieldwork in the North. Readers need not be versed in glaciology, however. Ives has produced a highly readable book that seamlessly combines research and adventure.

From reader reviews:

Emma Berkey:

The book Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights) can give more knowledge and also the precise product information about everything you want. Why then must we leave the great thing like a book Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights)? A few of you have a different opinion about guide. But one aim that book can give many details for us. It is absolutely suitable. Right now, try to closer with your book. Knowledge or facts that you take for that, you are able to give for each other; you can share all of these. Book Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights) has simple shape nevertheless, you know: it has great and massive function for you. You can appearance the enormous world by open and read a book. So it is very wonderful.

Jessica Jackson:

Book is to be different per grade. Book for children until finally adult are different content. To be sure that book is very important for us. The book Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights) had been making you to know about other expertise and of course you can take more information. It is rather advantages for you. The publication Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights) is not only giving you far more new information but also to get your friend when you really feel bored. You can spend your own spend time to read your guide. Try to make relationship with the book Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights). You never feel lose out for everything should you read some books.

Alice Myers:

In this 21st one hundred year, people become competitive in every way. By being competitive now, people have do something to make these survives, being in the middle of typically the crowded place and notice through surrounding. One thing that occasionally many people have underestimated the item for a while is reading. Yes, by reading a guide your ability to survive increase then having chance to stand up than other is high. For you personally who want to start reading a book, we give you this particular Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights) book as starter and daily reading e-book. Why, because this book is more than just a book.

Sebrina Knapp:

The publication with title Baffin Island: Field Research and High Arctic Adventure, 1961-67 (Northern Lights) has lot of information that you can discover it. You can get a lot of gain after read this book. This particular book exist new know-how the information that exist in this reserve represented the condition of the world currently. That is important to yo7u to learn how the improvement of the world. This particular book will bring you within new era of the globalization. You can read the e-book on the smart phone, so you can

read this anywhere you want.
