*Metal will Clash*

In a not-too-distant future, robots composed of metal for bones, electric cords for veins, and synthetics for skin are now available. For purchase. Eighteen-year-old Vienna Avery's home is going to change forever, now that her mom purchased a French Chef Robot to cook and reside in their house.

*Secrets will Unfold*

The government claimed robots were indifferent, unthinking pieces of metal and elastic-assistance for hire to humans. Vienna never believed much of what the government said. The pieces didn't always fit. And now Vienna knows why, because she's uncovered the government's secret: that robots have emotions, sucking Vienna into the underground world of feeling, thinking, and sovereign robots.

*Sparks will Fly*

Alec Cypher is everything a robot is not supposed to be: deep, dark, and dangerously human. And for some reason, he wants to save Vienna from the government's prying, vindictive eyes. Going forward, Vienna will have to learn to trust robots and battle the growing feelings she never thought possible . . . feelings for the green-eyed, soul-searching robot named Alec.
