## **Objections at Trial** Myron H. Bright, Ronald L. Carlson, Edward J. Imwinkelried

At 4-by-6 inches, this complete reference guide travels easily to the courtroom or classroom. NITA's invaluable handbook bridges the gap between knowing the rules of evidence and applying them in a judicial setting - and clearly identifies what proposed evidence is subject to exclusion by objection. This updated 5th edition provides the reader - judge, lawyer, or law student - with a primer on the fine art of making effective objections to inadmissible evidence.

Objections at Trial, based on the Federal Rules of Evidence, will also be useful in practice in the courts of all fifty states. Indeed, forty-one states now have evidence codes patterned directly after the Federal Rules. This updated edition includes a mini-CD with the entire book in PDF format hyper linked and bookmarked for ease of use.
