Bugs by The Numbers Counting Cards Sharon Werner

Awesome insects decorate these eye-catching number wall cards. One side features an insect built from a number that reflects its numerical feat (e.g. 50 comprises the dragonfly because it catches and eats about 50mosquitos each day). When the cards are flipped over, the numbers 1-25 are displayed for more counting games and simple arithmetic skills. It's an engaging and entertaining way to look at?and learn?about bugs and their many numbers.
