Cold Blooded Killers RJ Parker

The author delves into the gritty, gruesome details of the most notorious Cold Blooded Killers the world has ever seen, like Edmund Kemper who decapitated his mother's head; used it as a dartboard, had oral sex with it, and then cut out her voice box and placed it in the garbage disposal. Michael Alborgeden who at the age of 14 just couldn't take the humiliation anymore and killed his father. School shootings we are all too familiar with as it's happening much too often. Read about Columbine and Virginia Tech in this book.

This book is comprised of 3 sections:

1. Kids who killed their parent(s)
2. School shootings
3. Spree Killers (Going postal)

"Cold Blooded Killers is a blood-curdling collection of some of the most famous and the least known multiple-murder cases. I primarily bought this book as a source file for my own writing as I find the information to be well-informed and easy to read. The very human stories in this massive collection are filled with the tragedies of the victims' encounters with the abnormal criminals who most of us thankfully avoid in our day-to-day lives. Some very eclectic selections and some well-known cases are presented to us by a writer who is always striving to advance in his True Crime expositions. The thing I like most about this author's true crime writing is that the victims are never forgotten and the murderers are not sensationalized but portrayed for what they really are, sociopathic cold-blooded killers." - **William Cook**
