## **Russia's Intelligence Gathering Organizations: " The GRU, FSB, KGB, CHEKA, SPETSNAZ, NKVD, MOD et.al."** Edited by Paul F. Kisak

The Intelligence Community in Russia consists of a complex series of intelligence agencies operating under the supervision of the National Security Council of Russia. The main Russian governmental services responsible for gathering foreign intelligence are: 1. Foreign Intelligence Service (SVR) - The Foreign Intelligence Service reports directly to the President of Russia. 2. The GRU - Main Intelligence Directorate of the Military of Russia. 3. 12th Chief Directorate - 12th Directorate of the Ministry of Defense, responsible for Nuclear Security & 4. The Federal Security Service (FSB) – (formerly the KGB) The Federal Security Service is responsible for counter-intelligence, state security and anti-terrorist operations. The GRU first predecessor in post-tsarist Russia was created on October 21, 1918 under the sponsorship of Leon Trotsky, who was then the civilian leader of the Red Army. It was originally known as the Registration Directorate (RU). The GRU is the foreign military intelligence main directorate of the General Staff of the Armed Forces of the Russian Federation (formerly the Soviet Army General Staff of the Soviet Union). The official full name is Main Intelligence Directorate of the General Staff of the Armed Forces of the Russian Federation. The GRU is Russia's largest foreign intelligence agency. In 1997 it deployed six times as many agents in foreign countries as the SVR, the successor of the KGB's foreign operations directorate. It also commanded 25,000 Spetsnaz troops in 1997. This book gives an unclassified 'current' overview of The Russian Intelligence Community.
