Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound

Antony Milne

Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound Antony Milne

A grand tour of the "fireball" mystery, covering all aspects of science to help the reader understand the wide range of natural objects and unexplained phenomena in the skies

Covering reports of comets, ball lightning, antimatter explosions, disc-like clouds, strange sunsets, plasma balls, and "spooklights," this groundbreaking book leaves no scientific theory or hunch unexplored. The mystery sounds from irritating "hums" heard in urban areas are also explored in detail, as well as paranormal evidence of phantom planes and battlefield ghosts, and mystery voices and radio messages that scientists and the military have recorded. It also deals specifically with the huge defense files that have now been accumulated on UFOs around the world, and tries to explain—using the latest in scientific theorizing about energy physics—what this weird phenomena actually is, and why we should be worried about it.

From reader reviews:

Wilma Blue:

Now a day people who Living in the era where everything reachable by talk with the internet and the resources in it can be true or not require people to be aware of each details they get. How many people to be smart in acquiring any information nowadays? Of course the answer is reading a book. Reading a book can help folks out of this uncertainty Information particularly this Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound book because this book offers you rich info and knowledge. Of course the information in this book hundred % guarantees there is no doubt in it you probably know this.

Thomas Heiden:

Spent a free time to be fun activity to complete! A lot of people spent their spare time with their family, or their friends. Usually they accomplishing activity like watching television, likely to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? Can be reading a book can be option to fill your free of charge time/ holiday. The first thing you will ask may be what kinds of guide that you should read. If you want to attempt look for book, may be the e-book untitled Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound can be good book to read. May be it is usually best activity to you.

Brad Sharpe:

Your reading 6th sense will not betray an individual, why because this Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound book written by well-known writer who really knows well how to make book that may be understand by anyone who also read the book. Written within good manner for you, leaking every ideas and publishing skill only for eliminate your hunger then you still skepticism Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound as good book not simply by the cover but also through the content. This is one guide that can break don't determine book by its include, so do you still needing one more sixth sense to pick this specific!/? Oh come on your examining sixth sense already alerted you so why you have to listening to one more sixth sense.

Dolores Albert:

This Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound is great reserve for you because the content and that is full of information for you who always deal with world and also have to make decision every minute. That book reveal it details accurately using great coordinate word or we can say no rambling sentences within it. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but hard core information with lovely delivering sentences. Having Fireballs, Skyquakes and Hums: Probing the Mysteries of Light and Sound in your hand like getting the world in your arm, info in it is not ridiculous a single. We can say that no reserve that offer you world in ten or fifteen minute right but this book already do that. So , this can be good reading book.

Hey there Mr. and Mrs. stressful do you still doubt that?
