This unique reference is the only drug-based therapeutics book in dermatology published in more than a decade. It covers the full spectrum of drugs prescribed for cutaneous diseases, including numerous topical, intralesional, and systemic drugs. To ensure quick access to information, each chapter features 5-10 drug tables; pharmacology key concepts; mechanisms of action; indications and contraindications; adverse effects; monitoring guidelines; and drug interactions. The tables alone make this reference a practical, convenient, and unique resource for the busy practitioner.
